LEUNG SHUN-WING

*Aged 12, St Joseph's Anglo-Chinese
Primary School*

This year, our school had a very inspiring message for students:

“Together We F.L.Y.!”

The “F” stood for “filling minds with wisdom and determination”. It reminded us to be determined when we face challenges.

“L” means “learning is a journey always to the stars”. It tells us that learning is a lifelong process that doesn’t stop when you finish school.

Finally, we come to “Y”, which stands for “youthful energy, endless potential”. It reminds us that students are young and full of energy. We have many hidden talents and a lot of potential, and we should use them well.
