

My Favourite Pet

2A Ng Wing Hei

My favourite pet is rabbit. My rabbit is small and white. It has a pair of round red eyes and two long ears. A fluffy tail is short. It has two strong hind legs. That is why it can jump high and run very fast. It has two pairs of big front teeth for eating food.

Rabbit is hare's relative. It is vegetarian and eats greens only like grass and fruits. Carrots are their favourite food. It is active from daytime to evening, and it sleeps at night. I love playing with my pet rabbit every day. I like touching its soft white fur. I feed it with carrots. Sometimes, we will bring it out to the garden and let it run and jump and play with its other rabbits. I love my pet rabbit and we become friends.
